

## Peg Leg Funding Application

16/12/2018

**Full Name:** Grant Prattley

**Have you had a NZCA Canyon Fund application approved in the past?** Yes

**Please detail the competence of the applicant to complete the project:** Proven in previous application/s

**Region:** Canterbury

**Canyon Name:** Peg Leg

**What is intended to be done?** Explore and bolt a new canyon

**Budget:**

- 10 x stainless steel fixed ring hangers
- 8 x stainless steel CT hanger
- 18 x HST3-R Hilti bolts

Total cost = \$195.76

**Approximate date of completion:** 29/12/2017

**Why should the project be supported by the Canyon Fund?** It's a great adventure with an 11 pitch canyon with a 3 hour walk in from the Arthurs Pass highway. First descent was done as a day trip from Christchurch. The Topo is already live on Kiwi Canyons. <http://www.kiwicanyons.org/pegleg-creek-v4a3iii/>

**How will this project mitigate impact of canyoning activities?** Using stainless bolts will provide long term anchor for a great trip.

**How does this project align with good practice (such as the NZCA bolting COP)?** The bolting aligns with the NZCA COP.

**How will any permission be gained from the land owner/manager to do the work?** DOC had previously been consulted.

**What is the significance of the new canyon?** First descent, easy access, next to a main highway, repeatable by the community.
